

## **POLICE WANT TO TALK TO ME, WHAT DO I DO?**

If the police are looking for you and have expressed an interest in speaking to you, you are not alone. This happens countless times during the course of criminal investigations. **You do not have to speak to police!** It is your right to refuse to speak to them and your right to remain silent under the US and California Constitution. You will want to consult with a criminal defense lawyer right away. If you contact me, I will meet with you and listen carefully to all aspects of what led the police to you. Once that is done, we will lay out a plan of attack going forward from there. This could include many options. Please do not speak to the police until you have consulted with me or another experienced criminal defense lawyer first. Call my cell immediately **949 922 3733!**
