

**THERE IS A WARRANT FOR MY ARREST, WHAT
DO I DO TO CLEAR IT?**

When an arrest warrant is issued for a person, this gives any law enforcement agency the power to arrest the subject of the warrant, literally any time and any place. If you have an arrest warrant in your name, it is imperative that you speak with an experience criminal defense attorney. There may be an option of hiring a myself or posting a bail bond and avoiding going to jail or even court in some circumstances. Please call or text me on my cell and I'll do some preliminary research to see how to best attack the warrant and clear it from your name. Should you let the warrant linger, you could get pulled over for a minor traffic infraction, and end up spending the next several days in jail as a result of the warrant. Don't hesitate to call me. Call or text my cell immediately 949 922 3733!
